

ARE YOU IN COUNT

Supervisor Van Sant Wants All Topekan in Report.

Capital City Must Make Good Showing in This Census.

WILL HOLD THEM BACK

Boss of Counters Will Keep Returns for New Figures.

Interests of People Demand That All Be Enumerated.

"I expect to send the census records on to Washington in two or three days," said Reese Van Sant, supervisor for the first congressional district, in speaking of the suggestion made that the Commercial club take a count of the people. "If, however, in any way we could add anybody to the list I'll hold the books a day or two. If they would do it this week it would be a good thing, and I would be glad to see it done."

"We have taken great pains to include everyone on the list, but even with 47 enumerators doing the work in Topeka, it is impossible to get everyone. I have had several calls over the telephone from persons who thought they had been left out, and I detailed a special enumerator in each case to investigate, but it was found that these individuals had had their names turned in by their wives or someone else."

"If it could be proven that any individual district was not thoroughly canvassed by an enumerator, the government would order the district re-enumerated, but the census that the Commercial club might take would not be accepted in itself by the government. If it were found that any names had been left out in the official census they could be added to the list before it is sent on to Washington."

"In Kansas City, St. Joseph and Omaha the commercial clubs started the 15th of March and, employing the regular force of government enumerators at \$3 a day, had them make a card index file which included every known person in the respective cities. This work took about 20 days, and when the regular work of taking the census began the fact gatherers took the card file and checked up."

"When will we get the official returns of the census in Topeka?" was asked.

"They will have to come from Washington and that may not be for some time," replied Mr. Van Sant.

"What about the returns that have been in the papers from Kansas City, Lawrence, Wichita and other points?"

"That must simply be guess work. It is a penitentiary offense to give out any information from the supervisor's office," said the supervisor.

Mr. Van Sant stated that a number of persons had been referred to the office who were stubborn about giving information asked by the enumerators, but when they had been made to realize the reading of the law on this point they answered questions.

RIGHT TO GET DRUNK.

Is Upheld by a Chicago Judge Before the City Council.

Chicago, May 10.—Declaring the practice of arresting "quiet drunks," to be illegal and unfair, Municipal Judge McKenzie Cleland appeared before the judicial committee of the city council and urged the passage of his recently written ordinance on the question. He raised these points:

"It is not a violation of the ordinances to get drunk quietly.

"Much time is frittered away on making these arrests, while lawbreakers go uncaught."

"The liberty and reputation of a respectable, but weak, citizen ought to be of sufficient value to warrant some trouble in protecting him."

"His remedies for handling of 'drunks' are:

"To escort them home or to a police station without booking them."

KEMP TO VISIT ANARCHISTS.

Kansas Tramp Poet Will Also Study Salmon Fisheries.

Harry Kemp, the K. U. "tramp poet," passed through Topeka yesterday on his way to home, across from Tacoma, Wash., where he will study the anarchist community there for a week or two. He says he will return to Kansas within three months.

The community mentioned has been established about ten years and is incorporated under the laws of the state. Kemp stated that he understood that the inhabitants thereof are harmless, but do everything different from other people. After spending some time with them, the potential poet intends to work in the salmon fisheries along the northwestern Pacific coast and write about

them. It will be his first trip to that part of the country.

"You bet I'm coming back to Kansas," I wouldn't stay in any other state permanently.

"Have I finished examinations at K. U.?" I never take any exams. I just study what I please.

"No, I am not an anarchist. I just wish to study that class of people. They are harmless, but live according to their own ideas, and form an unique community."

BIG GOLD STAMPEDE.

Rush to the Iditarod Country to Begin Next Week.

Fairbanks, Alaska, May 10.—The ice on the Chena river began to break up in front of Fairbanks yesterday and before the end of the week navigation will begin on the Tanana and the lower Yukon.

The first boats are scheduled to leave Fairbanks Thursday and with their departure will begin the big stampede to the Iditarod gold fields discovered late last fall. Two thousand prospectors have already made arrangements to go down the river to the Iditarod country and before the season is well started, it is expected that this number will be largely increased.

The water front of Fairbanks resembles a vast ship yard. Fourteen large steamers and hundreds of small craft are tied up at the wharves ready to sail.

Machinery for use in the new gold fields has been piling up on the docks all winter and now 40 big mining plants are ready for shipment. With the opening of navigation at hand, the excitement over the gold discoveries along the Iditarod is becoming more intense and the labor side action in Fairbanks and the adjoining camps is serious.

WANTS LITTLE FELLOWS

Mayor Gaynor Says Hunchbacks or Singed Cats for Detectives.

New York, May 10.—Mayor Gaynor wants a few little men on the detective force, even "hunchbacks and singed cats and little fellows, who can go through keyholes and knot holes." He adds that if they have eyes in the back of their heads so much the better. But the only kind of giants he needed as detectives are mental giants, he says.

The mayor's views were made known in a letter to the chairman of the civil service board after Joseph Hocker, six feet five inches tall, had called on the mayor, saying that he had passed the examination for a policeman, but was afraid of being disqualified. He departed with the mayor's letter in his pocket.

"He is too big for the detective force," wrote his honor. "For he could not go anywhere without being seen."

Hocker hopes to get a job as an ordinary policeman.

CUPS FOR DOGS.

One Thousand to Be Placed in Different Sections of Chicago.

Chicago, May 10.—One thousand drinking cups for dogs will be placed in different parts of the city to lessen the danger of rabies during the hot months.

An unusual method of combating mad dogs is the scheme of Dr. John J. Miller. Yesterday he obtained the consent of the judicial committee of the city council to place the drinking cups.

"I believe it will tend to lessen the danger of rabies at least 50 per cent," said Dr. Miller. "The cups will be kept filled with clean, cool water and will be in easy reach of any thirsty canine."

BOATS OF CONCRETE.

Barge Built of Stone and Cement Launched on Panama Canal.

Washington, May 10.—It will puzzle most people to know that a boat built of concrete will not only float, but has a greater carrying capacity, is more durable and even lighter than a strongly constructed wooden boat.

The Panama canal commission has just launched on the banks of the Panama canal, a big barge built of reinforced concrete, which weighs 60,000 pounds and two others will be soon finished. These vessels, it is said, are unaffected by sea worms, marine vegetation does not adhere to them and they are practically indestructible.

CLUB WOMEN MEET.

Tenth Biennial Session of General Federation at Cincinnati.

Cincinnati, O., May 10.—Delegates representing 800,000 club women of the United States are arriving on every train for the tenth biennial convention of the general federation of women's clubs.

The delegates spent the time sight-seeing and in social functions. At a concert this evening Mrs. Philip N. Moore of St. Louis, president of the general federation will be the guest of honor.

Holeproof Hosiery

For Men, Women and Children

"Holeproof" hosiery is made with 3-ply yarn in the body and 6-ply in the heels, toes and knees. This gives double the strength where the wear comes most.

Every pair is made of the finest and best materials the market affords. The manufacturers pay 63c a pound for Egyptian and Sea Island cotton, instead of buying ordinary cotton at 12c a pound.

Comfort is supreme in "Holeproof"—the fabric is soft and smooth and the style is increased, for the hosiery is shaped to fit the ankle like a glove fits the hand.

Buy "Holeproof" hosiery and you'll have no further need for the darning basket. A guarantee is in every box guaranteeing the wear for six months.

If you'll pay our Hosiery Dept. a visit we'll be awfully glad to show you how really good "Holeproof" is.

Men's "Holeproof" Half Hose
Cotton Half Hose in black and colors, 25c pair, 6 prs. \$1.50
Lustre Lisle Half Hose in black and colors, 50c pair, 6 prs. \$3.00

WEDNESDAY EVENING.
Address by Miss Agnes E. Penanga, Mardin, Turkey, and a representative of the American board.

SURPRISED HIS FOLKS.

Man Supposed to Have Been Dead by Hanging Shows Up.

Hackensack, N. J., May 10.—Although the dead body of a man found hanging from a tree in Weehawken, N. J., last July, was identified at the time as that of James Dillon of Hoboken, Dillon today is at home alive and well. He made his appearance to the astonishment and delight of Mrs. Dillon and her eight children as they were sitting at the dinner table.

Dillon was not communicative today as to why he went away last summer.

For our estimate on that LUMBER bill. J. B. Whelan & Co., E. Fourth.

THE EAST SIDE

(Items for the East Topeka column may be telephoned to Ind. phone 154.)

Lawn Mowers—Hose and Garden Tools

—priced special for a two days' sale.

Your lawn will need mowing regularly from now on. Have you got the mower to do it with? If not hadn't you better let us send one of our easy running mowers out to your home—special prices remember on mowers—hose and garden tools tomorrow and Wednesday.

How to Care for the Lawn

In a recent article on "How to care for the lawn" we read that the digging up of weeds and making holes in the lawn is a serious mistake. Hold your sod in tact and frequent mowing will soon kill all the undesirable growth, mow often enough so that there is only blades of grass to cut and you'll have in a short time a beautiful sward of green.

No Mail or Telephone Orders Filled
